**OLD WORLD CABLE NEWS.**  
GREAT UNEASINESS FELT OVER THE NEW HERIBES QUESTION.

The French Occupation of the New Heribes a Subject of Discussion Between France and England, Which May Lead to Serious Trouble—Foreign Notes.  
DROPOUT, Oct. 18.—High officials in diplomatic circles in Paris and London do not share the uneasiness which prevails in the colonies respecting French occupation of the New Heribes. The negotiations upon the subject between the governments of France and England ceased when the French chamber of deputies adjourned and have not since been resumed. The parleys, while they were in progress, were wholly directed to the question of fixing the duration of French occupation, and France being unable to specify the date when the term of occupation would expire, offered instead guarantees that the French convicts colonized in the New Heribes should be strictly guarded so as to render their presence entirely objectionable.

To this offer the English government replied that nothing short of the removal of the convicts and the absolute withdrawal of French authority would satisfy the British cabinet.  
"This," said the informant, "is the state of the case at present, and he anxiously anticipates England's attention is absorbed by current questions, the New Heribes matter will probably drag along for years, like the Newfoundland fisheries dispute."  
It is difficult to induce French statesmen to talk on the subject. Paul De Cassagnac and M. De Lesseps, when approached, declined to express an opinion, the ground being that they were deliberately ignorant of the question, and M. Clemenceau and Ferry refused to be interviewed, because, as they were considered their duty to keep silent at present. It is undeniable, however, that the French Radicals will oppose, with drawn teeth and tongue, and a pretty fight is in prospect.

Mr. Canille Dreyfus, deputy for the Seine, who is probably the chief leader of the Radical party, will express himself more freely on an extended disclosure of his views, said: "The Radical party dislikes the idea of France making distant ventures or meddling with affairs or territory of other nations, and therefore objects to M. Ferry from the premiership, but it is jealous of the dignity of the republic, and if England makes a question a national one or wishes to transmit our liberty of action in the Pacific all parties in France will unite to rebel her. If England will compromise with her, we will not, and we will rouse the national sentiment of France, the settlement of this question will be very difficult. French armor parry is not to be played with now."

The United Press representative made a second call at the quarters of M. De Lesseps, but he was not at home. The representative gave for his prospective visit to America. He received the correspondent affably and said: "You wish to know my opinion of the New Heribes matter? Ah, well, I can only satisfy you on that point; I have no opinion." Then indulging in a hearty laugh, he said: "You must be a student in the New Heribes. Is there a canal to be bored in the Heribes?"

"Then my wish me to interest myself in that country? I never meddle with politics." In an interview with a reporter at Dublin, Miss Mary Anderson said: "My reason for giving performances in aid of the sufferers by the Charleston earthquake was that I was anxious to show my love for my country and to repudiate in a practical degree the calumny which has been circulated to the effect that I was indifferent to the opinions or welfare of Americans. I have been obliged, for the sake of better opportunities afforded for the cultivation of my talents, to spend some time in England than I wish, but I haven't forsaken my country, whatever may be said to the contrary." Miss Anderson has gone to France for a season of rest and to study music.

Rev. Henry Ward Beecher had arranged to lecture on the "People's Right to the People's Reading," last Thursday evening, and appeared at the appointed time. Soon after he began his lecture his hearers discovered that he was discussing a subject entirely different from the one advertised, and cries of "stop him," they giving up the wrong lecture, and he was ordered to leave the hall. He was escorted to the door, and pointed out to Mr. Beecher his mistake, whereupon he proceeded, without the slightest perturbation, to roll off the "Rights of the People," and the audience at once gave the lecturer a round of applause. The mistake arose from the fact that Mr. Beecher had been informed by his managers of the subject of the lecture.

Signor Bucci, the Italian fencer, has arranged to repeat his feat in Paris, beginning November 4. During his career he has won many laurels, and he is now preparing for himself by riding through the streets, giving swimming and fencing entertainments, and on the evening of the conclusion of his feat, will dance several quadrilles to prove that he has maintained his strength. Signor Bucci says he is positive that he could beat sixty fencers, and that he would not be out of the Italian desert. It is his intention to visit London and New York after leaving Paris. The report of the Irish National League of Friends, which upon a subject entirely different from the one advertised, and cries of "stop him," they giving up the wrong lecture, and he was ordered to leave the hall. He was escorted to the door, and pointed out to Mr. Beecher his mistake, whereupon he proceeded, without the slightest perturbation, to roll off the "Rights of the People," and the audience at once gave the lecturer a round of applause. The mistake arose from the fact that Mr. Beecher had been informed by his managers of the subject of the lecture.

British Claims the Championship.  
LONDON, Oct. 19.—Hullian 10-day in the Sycamore, after reaching the attempt to get a win with Beach, claims the championship of the world. These are his words: "At the present time I claim the title of champion of the world, and I am prepared to uphold the title by rowing any man in the world from Putney to Weybridge for a stake of \$500 a side."

**THE CHICAGO STRIKERS.**  
SERIOUS TROUBLE IMMINENT AT THE STOCK YARDS.

Fifteen Persons Wounded.  
LONDON, Oct. 19.—The Frank Pinkerton, from Musquash for Swansea, is wrecked at Port Quin. Eleven persons are reported drowned, and only one saved. The Norwegian bark Alliance, on board of which the United Kingdom, is ashore on Don bar in a very dangerous position. Eleven persons are reported saved and four are missing.

**A BRUTAL PLOT FIGHT.**  
Thirty-Three Rounds Fought in Chicago, Lasting Over Two Hours.

CHICAGO, Oct. 19.—Saturday evening in a room not far from the board of trade, a prize fight was witnessed by a select party of board of trade men and a delegation of Archer avenue saloon-keepers. The principals were Charley Reed, of Buffalo, a 165-pound pugilist, and John Brandy, of Omaha, who weighed 175 pounds. Both men were backed by a well known board of trade man while stock yard men were behind Brandy. The stakes were for \$200 a side, and the battle lasted through three rounds, and two hours and ten minutes, it is said to have been one of the most desperate that has ever been fought in this vicinity, the gloves used being of the skin variety.  
The first ten or twelve rounds were rather tame, the men being wary and feeling each other, but after that the fight was in earnest and though groggy, greatly continued the battle. In the thirty-third round both men came up very weak, Reed being a trifle the stronger of the two. A little damage was done in the early part of the round, but finally Reed, fainting with his right, caught Brandy a terrific left-handed upper cut on the chin, knocking him out for a minute and a half. He was then laid on his back, and both men were severely punished, and had to be taken away from the scene of the fight in carriages. The sides and ceiling of the room in which they fought were splattered with blood.

**POLITICS IN A CHURCH.**  
A Session Called in New Haven By Reading a Letter From a Minister.

NEW HAVEN, Conn., Oct. 19.—In a speech delivered here John B. Finch, of Nebraska, created a sensation by reading the following letter sent under seal to a Methodist minister:  
"GEORGETOWN, Conn., Sept. 24, 1886.  
"DEAR BROTHER:—I am sorry to hear that you could not see me last week for my friend and brother, P. C. Lounsbury, the Republican candidate for governor. If a Roman Catholic were to read this letter, he would not vote for him! If a runaway were, would not every runaway support him! Why, then, should we not as Protestants and Methodists unite and vote for our friend and brother, and especially one who is as true a temperance man and Prohibitionist as there is in the state?"  
"GEORGE A. HUBBELL."  
The Rev. Mr. Hubbell is a Methodist minister in Georgetown, who seems to be doing his utmost to sustain the Methodist pulpit in Mr. Lounsbury's behalf.

The Richmond Convention.  
RICHMOND, Va., Oct. 19.—Delegates at last to speak at it, but there were scarcely 100 of them in the hall. The hall was called to order at 7 o'clock. Scores of them departed from the city on last night's train, and many more have settled their hotel bills and will leave to-day. There is, therefore, every reason for adjournment within the next thirty hours. Officers say the work of revising the laws will be taken up immediately, noting radical changes in the constitution. Nearly every one is in favor of increasing salaries of the general officers. That of grand master was asked to be raised to \$2,500 or \$3,000 from \$1,500, and the other officers may get \$1,500 or \$1,800, whereas they now receive \$1,000 annually.

A Gang of Systematic Robbers.  
NEW YORK, Oct. 19.—The Police Department has been notified that a gang of robbers who have been robbing houses in West Fourth street was robbed and partly burned by Bernard Kelly, his servant, some time ago, has found secreted in the house a number of letters addressed to Kelly belonging to a gang of clerks and servants who systematically robbed their employers. They were permitted by Kelly to make Dr. Fowler remove their headquarters. Men and women were admitted at night and carried into morning in the doctor's absence. Kelly stole many thousands dollars worth of jewelry, clothing, etc., from the house. The pawn tickets for many of the articles have been found. Dr. Fowler says many letters referring to the case of the robbers have been found in the city. Kelly is serving a term of imprisonment for arson in the city prison. The Police Department is making every effort to locate the gang, but his of his crime was not traced.

Defending Life and Property.  
MILWAUKEE, Wis., Oct. 19.—George Kuefer, a Frenchman, keeps a saloon in Watkinson, outside of the city. William Daly, a section hand on the St. Paul railroad, owed him some money, and Kuefer went to the section box to have the money taken out of his pocket. He was resisted by Kelly and three friends, John Higgs, Pat Reagan and Mike Benton, who were in the saloon. The inferior of which they succeeded in the robbery, and they fled. Kuefer was advanced with an uplifted chair and Kuefer, in order to avoid being knocked down, took his revolver and fired at his assailants. He brought Higgs and Daly to the ground. Both were shot through the abdomen, and may die any moment. Kuefer came to town and surrendered to the sheriff.

A Horse Thief Captured.  
LAFAYETTE, La., Oct. 19.—A horse and buggy, owned by J. W. Cammack, of this city, was stolen from the public square. The thief was traced to Michigan City, where he was captured. The horse and buggy were property recovered. The prisoner is a Swede named Charles Norris, and says his home is in Minnesota. He was returned here and placed in the county jail.

**THE SABINE PASS DISASTER.**  
Later Reports Show the Number of Casualties at Two Hundred and Fifty.

BRACMONT, Tex., Oct. 19.—Every small craft that comes up the river continues to bring refugees from the flooded districts about Sabine Pass. The death list is estimated by persons who have been over the scene of devastation at Taylor, Bayou, Johnson's Bayou, and Sabine Pass, at about 250 souls. Already around Johnson's bayou eighty-five corpses have been recovered, and fifty-four bodies, burnt, buried, and sixty-six white and colored persons missing at Sabine. It is known that the number of sufferers around Johnson's bayou, who have lost everything, will reach 120, while the Sabine survivors will number 300, one-half of whom are now in Beaumont.

The searchers for the unfortunate in the vicinity of Sabine have become scared by the dangerous appearance of the cattle. The watering pools have become so full of water and the cattle are wild with thirst. Intelligence has reached here that the great gale swept over the country for forty miles north of Beaumont, and that the cattle were driven to the south by the gale. Jasper, the county seat of Jasper county, and damaging cotton badly. Several houses in that region were demolished, but no loss of life occurred north of the Southern Pacific road.

"Boodle" Alderman's Case Called.  
NEW YORK, Oct. 19.—The case of Alderman Francis McCabe called in connection with the other "boodle" allegations, with bribery in office, was called this morning by District Attorney Martine. After some little delay McCabe's counsel, Mr. Newcombe, the hearing was set at 10 o'clock, Monday next. District Attorney Martine then committed McCabe to the Tombs' prison without bail despite the fact that the latter had furnished \$4,000 security for his appearance at trial. McCabe's counsel subsequently obtained from Judge Donohue a writ of habeas corpus and certain orders of the keeper of the city prison to procure McCabe in court this afternoon.

Boiler Explosion.  
CINCINNATI, Oct. 19.—Early this morning one of the boilers in the big factory of Finkler and steel works, at Newport, exploded with terrific force, driving two fragments of iron weighing about 300 pounds, across the street, and striking a building. The mill hands were all about the place, no one was hurt. The damage will be about \$2,000. The explosion occurred in the old mill, but the real cause has not been ascertained as yet. The boiler will be inspected immediately. The whole thing weighs about two tons, and consequently can carry a large steam pressure. That anyone in the building escaped with their lives is something only short of the miraculous.

Fire on the Ohio River.  
EVANSVILLE, Ind., Oct. 19.—At 10:30 last night the big lumber steamer, the "Cleveland," in flames, and before the department could respond the boat was burned to the water's edge. Loss, \$25,000. Boat valued at \$5,000, and with \$20,000 in lumber. The loss is on merchandise which was stored on board. Three men were on the ship at the time of the fire, and they were rescued by watchman, and Herbert Bull, assistant, escaped with terrible burns, but the third man, name unknown, is supposed to have perished. The steamer "Cleveland" was built at the time of the fire, but was out loose and drifted away.

Blaine's Tour Through Pennsylvania.  
PHILADELPHIA, Oct. 19.—Hon. James G. Blaine and party left here this morning en route for the western part of the state, where Mr. Blaine expects to deliver a number of campaign speeches. The members of the party were given a cordial and enthusiastic reception by the Pullman car "Davy Crockett" which was used as headquarters during the entire trip.

Wreck on the Lake.  
EHR, Pa., Oct. 19.—From the amount of wreckage, cabin furniture, etc., washed ashore yesterday, no doubt is left that the small tugboat "Cleveland" was wrecked before it had been wrecked in the storm. When it was there were ten or twelve men in the rigging and they are probably drowned. The only clue to the identity of the vessel is a name-board bearing words which look like "Peru, Chicago."

Rumors About Literary Life.  
NEW YORK, Oct. 19.—A Chicago special to the West says it is asserted that Mr. Cleveland has ceased to edit Literary Life, and will use the proprietor for breach of contract. He claims it is said, a large share of the profits of the enterprise has been secured here. Mr. Elder denies that any such rupture has occurred. He is going out to see Mr. Cleveland and arrange for the future.

Preparing for the President.  
RICHMOND, Va., Oct. 19.—Governor and Mrs. Fitzhugh Lee, of Virginia, have invited Lieut. Albert C. Dillingham, of the navy, and his wife, to visit their private family estate in Richmond, in order to assist in receiving President and Mrs. Cleveland, who are expected here on the 21st of October. Lieut. Dillingham is attached to the Flagship Tennessee.

A Fatal Duel With Knives.  
WINCHESTER, N. C., Oct. 19.—At Newport, ten miles east of Winchester, a quarrel over a debt after a few words knives were drawn, and in the fight Milligan received a fearful cut across the abdomen from which the blood protruded. He cannot live over a few hours. King has been arrested.

Destructive Fire in Maryland.  
SALISBURY, Md., Oct. 19.—The fire of last night has swept everything. Only two small stores are left standing on Main street. There is no exaggeration in the report that the losses will aggregate a million dollars. The people of the town are homeless, and have to sleep on the streets, and nothing to eat can be had.

Schooner Lost.  
CHICAGO, Oct. 19.—The schooner H. A. Richmond, for New York, was lost in Lake Erie, is safe. A dispatch has been received from Michigan City reporting her arrival there with no greater damage than the loss of part of her canvas.

**THE CHICAGO STRIKERS.**  
PINKETON MEN STONED ON THEIR WAY TO PACKING-TOWN—A BITTER FEELING GROWING—CO-OPERATION PROPOSED—MILL IN AMSTERDAM STARTING UP NOTES.

CHICAGO, Oct. 19.—Everything was quiet at the stock yards in the morning. Everywhere rumors of a speedy settlement were current but no facts upon which to base a definite prediction were ascertainable. The yards and Packingtown were quiet though the order excluding outsiders was not being carried out strictly. Armour's houses started up with an appearance of being full, but as a matter of fact, not much over 10 per cent. of the number employed there when the strike commenced were at work. Capt. Foley, who said he had 500 Pinkerton men under his orders, visited the town hall to secure a number of additional badges for his special policemen.

Mr. Barry, who has received from Mr. Packer's lawyer a written and full authority to act, was on the ground early and expressed his expectation of a speedy settlement. The beef men at Swift's and Morris were not called out, the executive board of District Assembly 57, deeming it desirable to have them remain at work for the present.

No hugs were being killed at Armour's, the force at work devoting themselves to slaughtering cattle. The Pinkerton picket line was established about 7:30 o'clock, keeping the old employees away from the packing sheds. A large crowd stood about Armour's place at 7 o'clock, but no demonstration was indulged in, and all moved back peacefully when requested.

Much excitement was caused about 10 o'clock by the return of a number of Pinkerton recruits sent on their way to Packingtown. None was seriously hurt, but the feeling engendered was quickly manifested by the older men, who commenced to use their clubs freely in forcing groups of men about the houses to move along.

A bitter feeling that had not before been shown is growing, and it is feared may result in serious trouble. Members of the executive board of District Assembly 57, Knightly Johnson and his reporter, who said the strike was practically settled. They said that Delegate Barry was to have an interview with the packers, at which he would discuss the terms of the strike. The men took a day. He would try to insist on the discharge of the non-union men hired by Armour, but was even ready to give up the battle, and the packers should not agree to displace them.

Starting Up With Non-Union Men.  
AMSTERDAM, N. Y., Oct. 19.—A reporter made a tour of the mills whose proprietors are members of the non-unionists' association. Mayor Kline, of Kline & Hubbs, said: "We started this morning with our mill filled in every department with non-union help. We received a number of communications from work which we were obliged to reject, no having any more room. All our help either have withdrawn or never came. We are the Knights of Labor. No strike applied for work. Kline & Hubbs employ about 100 persons. Warren, De Forest & Co. turned away about twenty-five. All the help are non-unionists. The firm have received applications from Knights of Labor who were unable to procure withdrawal cards. Thomas & Pettibone have also received applications and have no room for more at present. All the other mills the same state of affairs exist. All say they have enough men, and think things look encouraging for the manufacturers.

A Case for Investigation.  
NEW YORK, Oct. 19.—At the meeting of the Brooklyn Central Labor union, Sunday afternoon, Oct. 18, three men and three women related a story of immorality which they said they had found after investigation. The facts were found in a factory, where a large number of women recently refused to work unless certain men were discharged. The facts were found to be that the men had committed certain felonies, and were to be discharged. The proprietors of the factory, it is said, refused to inquire into the matter. A committee was appointed to bring criminal proceedings against the accused men.

Cable Employees Liable to Strike.  
SAN FRANCISCO, Oct. 19.—The employees of the Market Street Cable Railroad company, the most important road of the city, are likely to strike on account of the company's forbidding them to join the Knights or other labor organizations.

Murdered His Room Mate.  
TOLAND, O., Oct. 19.—Henry Boush, aged twenty-eight, was found lying dead on the floor of his room, with a gaping wound in his breast. A post mortem was held and a bullet found in the lungs. Henry Boush's room mate in the murdered man was, as one arrested and on examining his trunk, a revolver with a newly sharp bullet was found. No cause can be ascertained for the murder, as the men were the best of friends. Boush's parents live near Reading, Pa., and he has been in this city only a short time. Boush's parents are now in the city.

Railroads Refusing to Obey Orders.  
JACKSON, Miss., Oct. 19.—The Vicksburg & Meridian and the Mobile & Ohio roads have refused to obey the order of the railroad commissioner relative to freights. The commissioner has issued a circular stating the penalty for each offense to be \$50, and advising all persons who overcame to bring their complaints in proper shape to the commissioner, when they will at once be put in the hands of a federal district attorney. The commissioner is determined to have the law obeyed.

Wholesale Cotton Factors Assign.  
CINCINNATI, Oct. 19.—King Brothers & Company, wholesale cotton factors at Vine and Water streets, have assigned to Charles H. Donohoe, of Pike building, for the benefit of their creditors. Assets, \$50,000; liabilities between \$20,000 and \$30,000. The failure was caused by the Waller failure, on whose paper King Brothers & Company are to the extent of \$15,000.

ouse, Maysville, Ky

# WASHINGTON DISPATCHES

## THE MOST IMPORTANT EVENTS HAPPENING AT THE CAPITAL.

### The Garfield Funeral Expenses Not Alld Congress Will Probably Be Asked for Another Appropriation to Make Up the Deficiency—Appointments.

WASHINGTON, Oct. 19.—There is yet due Undertaker Spears, of this city, from the Garfield estate nearly \$3,000. Spears was offered in compensation \$700, which he refused to accept, believing Congress would see the bill paid in full. There was about \$35,000 appropriated for the payment of Garfield funeral expenses, but the auditing committee passed down the bills, which left a surplus of the appropriation in the treasury. Spears recently presented the bill to Mrs. Garfield, but up to the present time nothing has been heard from her. In case she refuses to pay it will again ask Congress for an appropriation.

### Board of Pension Appeals.

WASHINGTON, Oct. 19.—The reorganized and enlarged board of pension appeals, for which provision was made by the last session of Congress, will probably enter upon its work this week. The board consists of nine members instead of three as originally composed. The nine members will be appointed to three divisions, each embracing three of the members, and each being perfectly independent of the others. The new members of the board were recently appointed by Secretary Lamar, and it is expected that the new increased board will, in good time clear the docket of the vast accumulation of business by which it has long been embarrassed.

### The necessity for the increase in the membership of the board arose from the rapid multiplication of appeals from the decisions of the pension board within the last three years in consequence of which the original board of three got behindhand 4,000 cases. A new and improved board, based upon experience has been formulated for the government of the board by which its work will be greatly facilitated and thus it is hoped to meet the demands for the numerous claimants upon the beneficence of the government.

### Not Responsible.

WASHINGTON, Oct. 19.—The war and navy departments deny that the government is in any sense responsible for the suspension of the South Boston iron works, as has been charged. Neither department is holding back accounts or refusing to pay obligations except the percentage retained under the terms of uncompleted contracts. The company has some old claims against the army ordnance department which the department has always refused to recognize.

### Postmasters Appointed.

WASHINGTON, Oct. 19.—The president has appointed the following named postmasters: Hiram H. Thomas, Col. George W. McLean, Evanston, Ill.; William A. McCune, Sterling, Ill.; Edward K. Pitman, Leon, Iowa; Louis P. Kent, Sturgis, Mich.; Ormond E. Colby, N. Y.; John R. Moley, New Lexington, O.; James Sweeney, Chambersburg, Pa. In each of the above cases the old postmasters were suspended.

### Courtesy to the French Guests.

WASHINGTON, Oct. 19.—The treasury department has approved a suggestion of the collector of customs at New York, that every courtesy be afforded to the French guests arriving to attend the Bartholdi dedication ceremonies, and that their baggage pass the custom house without inspection, etc.

### Red Cross and the Flood Sufferers.

WASHINGTON, Oct. 19.—Clara Barton, president of the American Association of the Red Cross, has issued a call on the societies in the south and southeast, and along the Mississippi river, to make collections of money and supplies for the benefit of the sufferers by the recent flood in Sabine Pass.

### A Royal Party From Japan.

WASHINGTON, Oct. 19.—The secretary of state is informed that Prince and Princess Komatsu and Prince and Princess Akihiro, of Japan, and their respective suites are expected to arrive at San Francisco to-day and the collector has been instructed to extend the usual courtesies.

### Minister to Colombia Appointed.

WASHINGTON, Oct. 19.—The president has appointed Gen. D. H. Maurice, of Virginia, to be envoy extraordinary and minister plenipotentiary of the United States to the United States of Colombia. He was nominated for this position some month ago and failed of confirmation.

### Found Dead in His Bed.

TERRE HAUTE, Ind., Oct. 19.—A. M. Pinkley, of Bowling Green, Ind., was found dead in bed yesterday at the Henderson house, where he had been stopping for some time. Under the bed was found an empty bottle labeled cyanide of potassium. When Pinkley came to the hotel he had had three horses entered for the race, which took place during the week. On Friday he informed an associate of the house that he had lost \$100 at the races. He was a member of a rich and influential family in Clay county. An inquest will be held to-day.

### Destructive Incendiary Fire at Fowler.

FAWLER, Mich., Oct. 19.—At 8:30 o'clock last night a destructive conflagration broke out here, destroying four principal business houses. The loss is estimated at \$12,000, only partially covered by insurance. The fire originated in the store of Broen's shoe store and is supposed to be the work of an incendiary. The buildings consumed were Broen's shoe store, stock partially insured; Jones drug and jewelry store, which greater part of stock; Lafayette shoe store, contents consumed; Mike Carr's saloon, insured with stock in North American for \$1,000.

### Per Perils Fostered.

ADRIAN, Mich., Oct. 19.—H. F. Finkel, Charles Houghtley and family, and a man named Taylor, ten persons in all, were postponed by arsenic put in sweet cider yesterday. Prompt medical aid saved their lives, although some are still very low.

### Paid His Brother's Bill.

NEW YORK, Oct. 19.—Sol. Sayles, the bondman and brother of Henry L. Sayles, one of the "boodlers" who sold the Canadian, to-day in the court of general session paid \$25,000, the amount of Henry L. Sayles' bill.

### Disgraceful Death.

CLEVELAND, O., Oct. 19.—Col. Charles Whitteley, the disgraced geologist and scholar, died this morning, aged seventy-nine.

## POINTED PARAGRAPHS.

Topics of the Times Given in a Terse and Brevity.

**Spicy Manner.**  
A friend of ex-President Arthur says his trouble is a species of gastritis and not Bright's disease.

**Yellow fever** has made its appearance in Maryland, and 275 cases are reported at Baltimore in that state.

The South Boston iron works suspended operations Saturday night, on account of inability to pay workmen.

Members returning from the Knights of Labor convention at Richmond take a very gloomy view of the success of the meetings.

Experiments with the telephone from Washington to New York resulted in satisfactory talk with people at each end of the three-hundred-mile wire.

An incendiary fire at Fowler, Ind., Sunday night destroyed Broen's shoe store, Lafayette shoe store, Jones' drug and jewelry store and Michael Carr's saloon.

The frost of Saturday night did disastrous work among the cranberry bogs of Massachusetts, three-fourths of the berries remaining on the vines being a total loss.

The marriage of Benjamin Cleveland, cousin of President Cleveland, and chaplain of the state of New Jersey, is announced to take place at Jersey City next Wednesday.

Frank Gilbreth, a wealthy German, while returning from church to his home, near Wheeling, W. Va., was killed by the upsetting of his wagon. His wife was severely injured.

A ten round glove fight took place at Milwaukee Saturday night between Tom Hinch, of Chicago, and McHenry Johnson, colored pugilist of Baltimore. The referee declared the fight a draw.

David Whitmer, of Richmond, Mo., who claims to be the only living witness of the divinity of the Book of Mormon, says their original Bible condemn polygamy instead of upholding it.

The Mail Line wharfboat at Evansville, Ind., was totally destroyed by fire Sunday night, together with a large amount of freight on board. The loss, which is a heavy one, was insured by the Western Union Insurance Co. of New York.

The stock market opened with an active sale of the various lists and prices went down slightly. A decline on almost every sale. The selling was continuous during the forenoon and at 11 o'clock the whole list was at 14 1/2 per cent, while Manhattan elevated dropped 1/2 per cent, shortly after 11 o'clock the selling ceased and at 1 o'clock a buying recovery of 1/4 to 3/4 per cent took place by noon.

Manhattan declined 1/4 per cent, the rest of the day steady. After midday another rise on the market broke prices down to the bottom figures again. The market is now firmer and more stable.

**Bar and Quotations.**—Wheat, 10 1/2; Corn, 10 1/2; Rye, 10 1/2; Oats, 10 1/2; Beans, 10 1/2; Peas, 10 1/2; Potatoes, 10 1/2; Sugar, 10 1/2; Coffee, 10 1/2; Tea, 10 1/2; Rice, 10 1/2; Flour, 10 1/2; Lard, 10 1/2; Butter, 10 1/2; Eggs, 10 1/2; Hides, 10 1/2; Tallow, 10 1/2; Wool, 10 1/2; Iron, 10 1/2; Steel, 10 1/2; Copper, 10 1/2; Lead, 10 1/2; Zinc, 10 1/2; Tin, 10 1/2; Silver, 10 1/2; Gold, 10 1/2; Platinum, 10 1/2; Palladium, 10 1/2; Rhodium, 10 1/2; Iridium, 10 1/2; Osmium, 10 1/2; Selenium, 10 1/2; Tellurium, 10 1/2; Bismuth, 10 1/2; Antimony, 10 1/2; Arsenic, 10 1/2; Vanadium, 10 1/2; Chromium, 10 1/2;
